ABOUT US

WHAT IS THE GREENE TURTLE?

The Greene Turtle is more than a sports bar & grille. We believe in being a community hangout for all ages that serves great food and drinks in a fun, casual atmosphere built on the excitement and unity of sports.

The Greene Turtle has been a local hangout since 1976 when we opened our first location in Ocean City, Maryland. We've come a long way since then, spreading our love for food, sports and community across the mid-Atlantic region and beyond. Each location has added a little more to our character.

APPROVAL PROCESS

COMMUNICATING OUR BRAND

We convey our brand identity through every communication and guest experience. As we grow, our success will be measured by the connection people have with our brand and how we communicate it.

Use these guidelines when considering how you utilize and apply The Greene Turtle logo, colors, templates and trademarks in communicating our brand. While we encourage creativity, consistency is essential to our success.

APPROVAL PROCESS

Our Marketing Team is available to create brand marketing materials. Design requests should be submitted by completing the Creative Request Form via the Admin Login on our website. If you choose to create your own branded materials, approval is necessary to help ensure that we maintain consistency in our brand communications. Approval can be obtained by submitting a completed Creative Request Form.

BRAND COMMUNICATION APPROVAL PROCESS:

Prior to production, ALL creative that includes The Greene Turtle logo or any other brand elements must be forwarded for review by submitting a completed Creative Request Form, which can be found via the Admin Login on our website.

NOTICE REQUIREMENTS

The trademark, an indication of its federal registration, if applicable, and an indication of The Greene Turtle's ownership, must be provided for each trademark and with every work that uses The Greene Turtle's trademarks.

NOTICE EXAMPLES – A TRADEMARK ATTRIBUTION BLOCK:

The Greene Turtle name and The Greene Turtle logo are registered trademarks of The Greene Turtle, Incorporated.

“The Greene Turtle” is a registered trademark and the The Greene Turtle logo with the smirking turtle is a trademark owned by The Greene Turtle. These, as well as other Greene Turtle trademarks, must be properly noticed and must be used in accordance with all legal applicable trademark usage requirements. **The © symbol is part of the logo composition and its position should not change in relation to the other elements of the logo.**

TRADEMARK USAGE REQUIREMENTS

The following trademark usage requirements are for all works, such as documents, labels, brochures, electronic displays or other materials, distributed in the U.S. and internationally, if applicable. These requirements help maintain the legal rights associated with the asserted trademarks and copyrights, and provide proper notice of these rights.

“The Greene Turtle” and “Greene Turtle” should always be written with initial capital letters. A trademark symbol should be used with the trademark.

Use the ™ symbol for trademarks that are not federally registered or the © symbol for federally registered trademarks. If you are unsure about the federal registration status of a trademark, contact:

Our logo is the most recognizable part of our company and as such is a valuable asset to us and our brand. The logo should be used consistently and in its proper and approved forms.

THE GREENE TURTLE LOGO consists of a Turtle icon, custom logotype and ® mark. The logo, above, is our standard version. However, you'll find alternate options that are permissible to use on the following pages, depending on the required application. In every approved logo composition, the elements are in a fixed position to each other and must never be altered. To ensure brand consistency and legal protection, the elements must never be redrawn, condensed, elongated, embellished, repositioned or altered in any way.

When selecting a logo, the version chosen should fit the application, taking into consideration the size, shape, color, orientation, etc. of the material to which the logo will be applied.

The Greene Turtle logo color is PMS 349.

PMS inks are the most accurate way to represent color for reproduction. Please use them to ensure the approved Greene Turtle colors are reproduced correctly and consistently. When printing with PMS is not possible, use the four-color process formula. When silk screening, embroidering or reproducing in other processes, match colors to PMS swatches.

FOR PRINT: C = 100 M = 0 Y = 83 K = 4 FOR WEB: R = 0 G = 105 B = 63

Do not reproduce this logo from anything other than approved final art or approved final electronic files. When using the logo on a computer, do not attempt to recreate it yourself as it may be accidentally modified, altered or distorted. Approved art files can be found in the Marketing & Branding folder in the File Library on the admin website, or can be obtained by contacting:

To ensure optimum legibility, a clear area surrounding the logo must be maintained. This area is referred to as the “area of isolation.”

The minimum area of isolation is derived from the height of the word “the” in The Greene Turtle logotype.

This area is the minimum allowable distance between the logo and all other imagery including: typography, photography, design elements, and page trim. A generous amount of clear space is always recommended.

The integrity of The Greene Turtle logo is maintained through proper use. Inaccurate reproductions of the logo will erode The Greene Turtle's ability to legally protect it, as well as confuse audiences. Examples of unacceptable logo use are shown on this page. For questions regarding proper logo usage, please contact:

INCORRECT LOGO USAGE

Elements of logotype are repositioned

Improper order of elements

Squished

Stretched

Reversed turtle icon

Adding elements

Elements are changed in logo composition

When adding the name of your location to our standard brand logo, use DIN Condensed Black for the font. Choose a color from the approved color palette. Make sure it's a contrasting color to the background you're using. Do not use PMS 349 (Greene Turtle green) for location ID. Align the location name with the left edge of the 'r' in Greene. In instances where the location name may run longer than the logo, adjust the font size smaller so that the name does not run past the 'e' in Turtle.

LOGO | COLOR USAGE

PMS OR CMYK GREEN

REVERSE

Logo visibility is the objective when selecting color for print communications. Every part of the logo must be clearly visible. Positive logos should be applied to light value backgrounds less than roughly 40% black on the gray scale. Reverse logos are applied to dark value backgrounds more than roughly 50% black on the gray scale. This includes any photographic background providing adequate contrast.

← GOOD CONTRAST →

← BAD CONTRAST →

BLACK

The black logo should only be used in one color applications where only black ink is being used.

VINTAGE

COLOR

When using the above logo composition ('Standard_Turtle+Name+ID'), it should be displayed in our Primary Green (PMS 349) and Gold (PMS 139) brand colors. When being used, it should always have adequate background contrast.

The following fonts are approved for all print applications.

FOR HEADLINES & HEADINGS |

VENEER | ABCDEFGHIJKLMNOPQRSTUVWXYZ 1234567890

MAIN PALETTE

PMS 349 is the PRIMARY green color associated with The Greene Turtle brand. To add interest, the palette of greens displayed on this page can be used for variation, and to help support visual continuity in brand communications.

Neutral tans or beiges are to be used in support of the greens.

The Accent colors displayed on the right are meant to add some pop or emphasis and also create a sense of FUN!
